

# *A World That Works for Everyone*

*The Work and Commitment of The Boothby Institute*

## **20 Days**

A World That Works for Everyone will be created  
one person at a time.

Are you willing to be that person?

Will you talk with everyone you know, your parents, your friends,  
the people with and for whom you work?

Will you contribute (money, time, talent) according to your  
ability?

Will you bring dignity, grace and loving-kindness to every  
interaction you have with people, organizations, corporations?

How will you be that person in the world?

How will you be the spark that lights the fire/passion of and for  
A World That Works for Everyone?

If everyone spoke with just three different people a day, here is  
how long it would take to reach  
7,600,000,000 people and let them know that we are creating A  
World That Works for Everyone and what they can do.

20 Days.

This is a very small planet.

# *A World That Works for Everyone*

*The Work and Commitment of The Boothby Institute*

Here at the Boothby Institute, this is what we are up to every moment of everyday. We welcome You as one of our family of 7 billion to: get in the conversation, get into action, call us, write us, or send a homing pigeon our way. We look forward to meeting  
You, All of You.

How long will it take each person to live in a way that makes A World That Works for Everyone real? That is up to each of us, in every moment of everyday, global change starts in the heart of each person reading this and ripples out into the world with each choice we make.
