

Creating A World That Works for Everyone

Basic Steps

Start With Your Self.

Are you committed to being about creating “A World That Works for Everyone” in everything you do?

Nothing is so strong as gentleness, nothing so gentle as real strength.

~ St. Francis de Sales

This work will require great levels of tenacity, commitment, heart, courage and self-awareness. It is crucial that you decide for yourself if you are all in.

Are you willing to commit to a contribution of Five Dollars a month (more if you are truly able) to creating “A World That Works for Everyone,” the work and commitment of [The Boothby Institute](#)?

Read “A World That Works for Everyone! An Exploration of Possibility.”

Do Self-Care, daily! Described in the Preface to Care of the Soul, available for reading or printed copies on the Resources page: www.beaworldthatworksforeveryone.com/resources

Involve your family and friends.

Play and invite others to play The 100/100 Game at home and in every environment where appropriate. The 100/100 Game only has two rules and one perspective shift needed in order to play.

A World That Works for Everyone

The Work and Commitment of The Boothby Institute

Rule One

Leave things better than you found them.

Rule Two

If you see something that needs to be done, do it.

Perspective Shift

Anything you see that needs doing/handling stop labeling it as belonging to "anyone." View it without the labels as simply what happens to need doing.

Example: When I come across wet towels in the dryer due to it not being turned on, all I see are wet towels in the dryer, and I turn it on so they can get dry. If I spend even a moment's time on how they got there, who put them there, the "mess" then belongs to someone and I have ceased playing The 100/100 Game. The 100/100 Game does not mean everyone makes messes and one person cleans it up; it means everyone plays the game, and by not making the messes "belong" to anyone and allowing them to just be what needs done. We internally free ourselves to be more fully present and agitation ceases. When everyone plays the game, the home/place of business/workshop/class/institution the place whatever it is, runs more smoothly and efficiently.
